Madrid OG Qualification event Senior	1	Best german fencer on the world ranking	-
European Championships U23	4	<ul style="list-style-type: none"> - Participating in all training camps and central trainings, independently from the kader-position 	1- 4 decided by BT upon team interests

Basic principals and changes from the past seasons

- In the season 2019/2020 only those athletes are going to be supported by the federation or nominated to World Cups and season highlights who are constantly and efficiently taking part in the common training camps and central trainings with the National Team, with which they are helping the Olympic Qualification.
- Beside the events which are standing in the season planning above, there are regular central trainings, taking place in the National Center, Bonn. The times of these trainings are from 16.09. – 16.12.19. every Tuesday 18:30-20:30, Wednesday (in Leverkusen 19:00-21:00) Thursday 18:30-20:30. Taking part in these trainings is not compulsory for the athletes who are not living in NRW but it is highly recommended and always welcomed. In case if the central trainings are taking place on the weekends (From January to March, see above) the participation is compulsory for everyone.
- In the season 2019/2020 athletes are only going to be nominated for World Cups if they already gathered several points to the ranking list in the current season. (See above in the nomination criteria) This means for instance that if there is only 6 athletes who are fulfilling this criteria then there will be 6 athletes nominated for the World Cup instead of 12. (In Olympic Qualification year the A-Team is automatically nominated to the events) In case of any Junior athlete presents significant results on the Junior World Cups (min. top 8) or senior national events she might be nominated on the empty spots, if there is any – occasional decision.
- According to the Sportausschuss decision from 2019/2020 the nomination for the U23 European Championships is the same quota as the Seniors, not 2+2 anymore, but all 4 decided by the national trainer. In the decision the frequently proved training work and the constant co-operation with the A-Team has minimum as much influence as the results of the current season.
- For all athletes in the National Team the yearly 3 times Leistungsdiagnostik is compulsory and it has to be done in Olympiastützpunkt Köln by Dr. Argiris Vassiliadis. The times of these examinations will be fixed later, but in general one in the beginning, one in the middle and one in the end of the season before the highlights.
- The composition of the National Team is variable during the season as well according to the participation on the common training events and the current results.
- Additional changes on these rules and plannings might appear according to the current status of the Olympic Qualification, the right of change is reserved.
- The points above are all cleared and agreed with the German Fencing Federation.
